

eBeam[®] LiveWire

As quick as an eBeam can turn any regular whiteboard into an interactive whiteboard, eBeam LiveWire can turn any PC into an eBeam-ready computer. Simply connect your eBeam receiver to any PC via LiveWire and run eBeam software directly from the cable—no downloading or installing necessary.

Whether you want to capture dry-erase marker notes with eBeam Capture or use the powerful interactive tools of eBeam Interact,

eBeam LiveWire eliminates the need for software CDs or time-consuming downloads. All the software you need is already on the cable, so you can run it on-the-fly or install it to your computer. There's even storage space to keep your presentations for the big meeting or save notes from an impromptu brainstorming session. As soon as someone plugs eBeam LiveWire into their PC, they are ready to go!

Product Specifications

Minimum System Requirements

Windows 2000, XP, Vista Operating Systems

Intel Atom processor 1.60GHz

1GB RAM

Available USB port

Technical Specifications

Unit Weight	30g
Dimension	65mm x 27mm x 15mm
Materials	Polycarbonate
Cable Length	80mm
Boxed Weight	100g
Output signal	USB 2.0
Operating Voltage/ampereage	5 VDC/98mA
Warranty	1 year
