

Interactive & Capture Whiteboard System

mimio®

Board

Whether you teach or present, host meetings or training sessions, if the whiteboard is your medium, then you need mimioBoard!

Complete interactive control right at the board has never been simpler.

Meets the needs of the most demanding interactive whiteboard user.

Used with a projector, mimio Board provides whiteboard control of computer applications & documents.

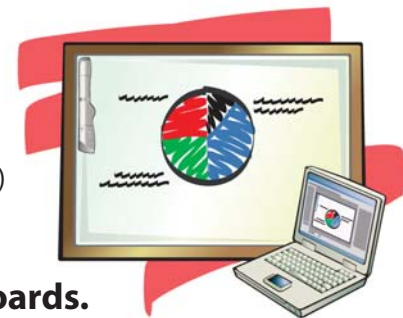

- Button controls at the board provide one touch access to user selected favorite functions.
- Navigate educational CDs & other interactive curriculum content
- Browse web sites & control PowerPoint slides, Word, Excel etc.
- Annotate & mark up as you go and save screen shots
- Present interactive content created in mimio Studio or other applications

Capture, store & share all your whiteboard notes & ideas!

Everything you write or draw on the whiteboard with dry erase markers is digitally recorded - in color & real time - in a portable & versatile digital data format for board-by-board playback in mimo Studio.

- Print board notes - in color and high resolution
- Email recorded ink files to attendees - edited or unedited, e.g. as PDF
- Easily upload board notes to web pages for review from any Internet location
- Share notes and collaborate with remote colleagues & student, live, via the Internet
- Record entire whiteboard session (with audio) using the mimio Recorder (Windows only)

mimio Studio interactive software suite tools included with all mimio Boards.

Audiences concentrate on the material presented rather than taking note taking.

- Create and assemble interactive content in an editable Notebook. Use mimio tool's Screen Clipping to acquire content elements from the Internet or any digitally displayed source.
- Copy whiteboard notes & materials into other applications
- Edit notes & integrate with text, graphics, images etc.
- Enhance presentation impact with interactive reveal screen and spotlight tools.
- Convert hand-written notes to typed text with mimio Writing Recognition (Windows only)
