AN EXCITING NEW LINE OF TABLETS FROM WACOM

Welcome to Bamboo, an exciting new line of tablets from Wacom! Now you can add Multi-Touch to just about any computer and use Wacom's popular pen input to mark up and annotate, as well as add fun to all your favorite creative interests.

The new Bamboo line comes in five exciting flavors:

**Bamboo Touch** is the perfect tablet for anyone wanting to navigate using Multi-Touch. Get all the gestures you're familiar with in mobile devices. Scroll, zoom, rotate, flip forward or backward, or perform any of the customary mouse clicks with a much larger space than you'd find on a typical laptop trackpad. Perfect for home or office, Bamboo Touch is the natural way to interact with your computer.

**Bamboo Pen** delivers the same fun way of working in your creative applications as our previous line of Bamboo tablets. Use it to mark up documents, collaborate better with others and personalize your communication. With the included Corel® Painter™ Essentials, you can digitally paint, draw and express your creative side.

**Bamboo Pen & Touch** provides amazing flexibility by offering both pen and Multi-Touch input in a single device. Gain all the advantages of Multi-Touch for general navigation and computer use, along with Wacom's famed pen input for creative fun. To get you started with an easy way to edit your photos, we've also included Adobe® Photoshop® Elements™.

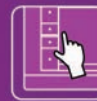

Two additional products, **Bamboo Craft** and **Bamboo Fun** round out the line. Both of these offer stunning new product designs and loads of value-add in the box to suit the needs of home creatives, photo enthusiasts, and scrapbookers of all ages.
