

The dedicated interactive whiteboard.

TeamBoard **M**

It's all about team interaction.

Boost collaboration and engagement and promote learning effectiveness. TeamBoard M enables teachers and students to visually describe, develop, solve, and share ideas. Designed for use primarily as an interactive whiteboard, TeamBoard M allows teachers and students to collaborate simultaneously or on their own, using direct finger touch or with a stylus.

MultiTouch

TeamBoard M registers and responds to up to four simultaneous touches with minimal lag.

MultiUser

Up to four users can work hands-on at the same time.

Intuitive Touch

With unsurpassed input recognition, TeamBoard M knows what you want to do, when you want to do it.
